CIAS 2026

Barcelona, 29 y 30 de junio 2026

CURSO PRECONGRESO en inglés

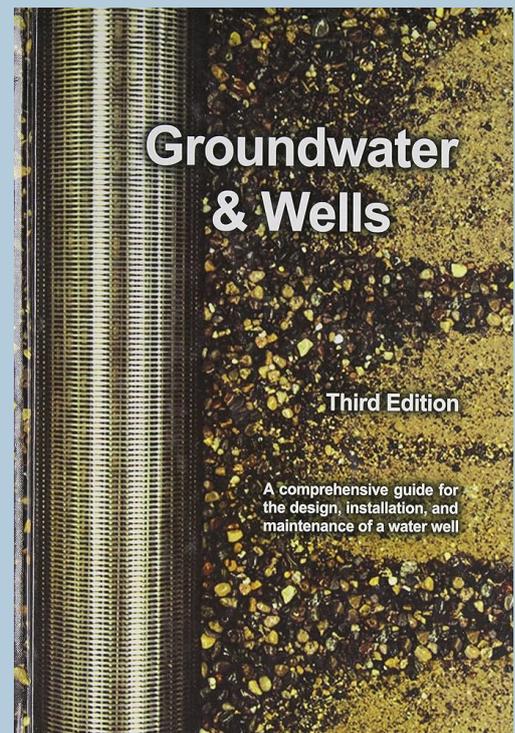

Well Exploration, Drilling and Well Screens
Well Ownership and Maintenance

The **Johnson Screens Groundwater and Wells Class** is targeted at water-well professionals that are engaged in the design, construction, operation and ownership of large-capacity water wells.

The first day will be devoted to **designing, reviewing construction** details. The second day will be focused on understanding the **operational life of a well**.

The featured speakers are authors of **Johnson Screens Groundwater and Wells 3rd Edition** and the **Operational Stage of the Well** text published by **NGWA**, which will be both be used as the text for the class. On-line programs and a spreadsheet will be provided to aid in the design of the well. Students should bring a lap-top computer for use in the class.

Participants will be able to ask questions in Spanish during the course.

Programme

Teachers:

Thomas Hanna (Johnson Screens)

Michael Schnieders (Water Systems Engineering, Inc)

Place: IDAEA-CSIC

c/Jordi Girona 18-28, 08034, Barcelona.

Dates: 29-30 June 2026 10h -18h.

Registration fee: €250.

Registration deadline: 15 March 2026.
